EXPERIENCE

Nike
Application Engineer Intern

June 2016 - August 2016
Beaverton, OR

- Developed a framework for measuring and reporting internal productivity and user experience
- Worked with peers to design an internal application and build an agile board to be used for development
- Participated on a cross-functional team to deliver a strategy to engage students with the non-profit Marathon Kids and presented to an internal community impact team.

TD Ameritrade
Advanced Technology Intern

May 2015 - August 2015
Ann Arbor, MI

- Collaborated with social media, business, and Advanced Technology teams to identify design requirements for an application that monitors social media traffic and aids customer service
- Implemented a custom web application client using JavaScript, HTML, and CSS and a custom server backend using JavaScript with Node.js and Express.js
- Communicated necessity of product to COO and business executives which led to product adoption
- Brainstormed future expansion such as mobile availability and multiple social media streams

Michigan Autonomous Aerial Vehicles
Developer

September 2014 - Present
Ann Arbor, MI

- Developed computer vision and path planning software for controlling an autonomous aerial vehicle
- Implemented A-star path planning algorithm to enable obstacle avoidance for aerial vehicle
- Competed in a 2015 International Aerial Robotics Competition and placed 2nd in United States division

Recreational Sports
Building Supervisor

September 2013 - Present
Ann Arbor, MI

- Promoted in Fall 2015 from entry level position at the request of a current Building Supervisor
- Assisted patrons as a customer service representative by granting requests and handling complaints
- Developed leadership skills by creating a positive work environment and mentoring new employees
